

04/timus/1880/main.cpp

```
graph TD; A[04/timus/1880/main.cpp] --> B[iostream]; A --> C[unordered_map];
```

The diagram illustrates the dependencies of the file 04/timus/1880/main.cpp. It features a top-level box labeled '04/timus/1880/main.cpp' with a dark background. Two blue arrows originate from the bottom of this box and point downwards to two separate white boxes. The left box is labeled 'iostream' and the right box is labeled 'unordered_map'. This visualizes that the main.cpp file depends on these two standard library components.

iostream
