

testing::internal::  
NaggyMockImpl< MockClass >

anonymous:

testing::NaggyMock  
< MockClass >

```
graph TD; A[testing::NaggyMock< MockClass >] -- red arrow --> B[testing::internal::NaggyMockImpl< MockClass >]; A -- blue arrow --> C[anonymous:];
```

The diagram illustrates the relationship between three entities. At the bottom center is a grey box labeled 'testing::NaggyMock < MockClass >'. From this box, a red arrow points diagonally up and to the left to a white box labeled 'testing::internal::NaggyMockImpl< MockClass >'. Another blue arrow points diagonally up and to the right from the same bottom box to a white box labeled 'anonymous:'.
